A new three-level kindergarten course designed for 3–5-year-olds

Sunshine aims at enhancing students' acquisition of English through immersion in the target language, active participation and age-related-content texts. Emphasis is laid on respect and trust towards oneself and others. In other words, it aims to pave the way to a positive, self-confident attitude in the life-long learning process, promoting a warm and safe classroom atmosphere that fosters learning, fun and creativity; health, hygiene, tidiness habits and social interaction routines in the foreign language. Risk-taking is encouraged and error is taken as an opportunity for reflection and development. *Sunshine* is therefore both teacher- and student-friendly, while also encouraging families to play an active role in their children's learning process. It provides well-balanced activities that address all intelligences and learning styles by including:

- Carefully designed, brain-friendly content-based activities (in literature, mathematics, science, environmental awareness, conflict management, fine arts, crafts, cooking), physical education, drama, Total Physical Response songs/stories, and other related tasks;
- Pre-literacy activities;
- Phonemic awareness;
- Illustrated stories, songs, nursery rhymes and chants to enhance retention and effective use of their content/lyrics;
- Tear-out activity worksheets that can be kept in the student's portfolio;
- Tear-out work of art pages;
- Tear-out *My Story Book*;
- Take-home books;
- Press out puppets and puzzles of works of art;
- Wrap-up activities every two units;
- Stickers;
- End-of-course diploma.
